

JOSE DAVID NINO MURIEL

Data Scientist / Data Analyst – J2 Visa and EAD holder

📍 Santa Barbara, CA, USA, 93117 | 📞 805-837-4259 | ✉️ jdninom@unal.edu.co | 🌐 joseninom

Data Scientist and Analyst experienced in transforming complex data into actionable insights and robust models that guide strategic decision-making. Skilled in crafting business intelligence solutions, including dashboards, reports, and statistical/machine learning models. Microsoft-certified Power BI Data Analyst with a Statistics and Data Science background from MIT. Proficient in a range of tools, including Python, Spark, Databricks, SQL, Microsoft Azure, and Office 365.

WORKING EXPERIENCE

Ministry of Housing, City and Territory of Colombia

Colombia (Remote)

Policy and Data Analyst

November 2022 – Present

- Participated in the redesign of Colombia's major urban housing program "Mi Casa Ya", a \$400M USD/year program. This change led to increased access of 17 percentage points (p.p.) for low-income families and 10 p.p. for remote towns.
- Conducted comprehensive analysis of 20+ key indicators, regularly updating dashboards in Tableau and reports to inform decision makers of construction sector trends, employment, prices, interest rates, and policy progress.

Instituto Colombiano de Bienestar Familiar – ICBF (Colombian Family Welfare Institute)

Bogotá, Colombia

Data Scientist

August 2020 – December 2022

- Led a multidisciplinary team of 8 data scientists, analysts, engineers, and social workers in the development and implementation of a Machine Learning tool. This project streamlined welfare teams' prioritization of 4,000+ weekly child maltreatment reports, potentially cutting response time to critical cases by 70%.
- Deployed statistical models to guide the distribution of \$150M USD/year in investments across 1,121 Colombian towns. This involved conducting statistical analysis on extensive datasets with +30 million data points.

Fedesarrollo

Bogotá, Colombia

Research Assistant

October 2019 – June 2020

- Conducted in-depth research into the economic impacts of crime and violence across 22 Latin American and Caribbean countries using Stata and R, revealing an average cost of 3.5% of GDP attributed to these issues.
- Supported data collection and analysis for a book chapter about the future of the oil and carbon sector in Colombia.

Centro Nacional de Consultoría

Bogotá, Colombia

Professional Consultant

April 2019 – October 2019

- Developed a study assessing the state of articulation between public and private actors in the Colombian business ecosystem, analyzing 1,000+ manager surveys, 12 stakeholder interviews, and data on 800 enterprise growth programs.

Universidad del Rosario

Bogotá, Colombia

Research Assistant – Part-time

May 2018 – September 2019

- Supported data acquisition, cleaning, and analysis using statistical and causal inference methods for the research paper "Manager's Productivity and Recruitment in the Public Sector", slated for publication in AEJ: Economic Policy.

Centro Nacional de Memoria Histórica – CNMH (National Center for Historical Memory)

Bogotá, Colombia

Data Analyst

August 2017 – August 2018

- Processed large databases containing data on 9M victims of the Colombian armed conflict using SAS and SQL. Generated ETLs and queries to facilitate information requests to internal and external users.

EDUCATION

Massachusetts Institute of Technology (MIT) | Administered through edX

Online

MicroMasters Program in Statistics and Data Science (GPA: 80/100)

Ending Date: November 2022

- **Coursework:** Probability, Fundamentals of statistics, Machine Learning with Python, Data analysis.

Universidad Nacional de Colombia

Bogotá, Colombia

Master of Public Policy (GPA: 4.4/5)

Graduation Date: December 2021

- **Coursework:** Causal inference, Research seminar, Qualitative research methods, Public policy theory.
- **Honors:** Full graduate studies scholarship after receiving undergraduate honors degree.

Universidad Nacional de Colombia

Bogotá, Colombia

Bachelor of Arts in Economics (GPA: 4.6/5 - Valedictorian)

Graduation Date: March 2017

- **Honors:** Full scholarship. Honor's degree. Excellence Distinction by the National Professional Council of Economists.

CERTIFICATIONS AND COMPLEMENTARY COURSES (click to see certificate)

Data Scientist Professional with Python (Datacamp, *in progress*); Power BI Data Analyst Associate (Microsoft Corp, 2022); Big Data with Pyspark (Datacamp, 2021), Data Science 4 All – DS4A (Correlation One, 2020).

SKILLS

Prog. Languages/Software: Python, SQL, R, Stata, SAS, Power BI, Tableau, SAS, Git, Microsoft Office Suite.

Cloud services: Azure (Databricks, Blob Storage, Data Factory, Power Automate), AWS (RDS, EC2, S3).

ML Libraries: Spark, XGBoost, scikit-learn, TensorFlow, Statsmodels, SciPy, Polars, NetworkX, GeoPandas.

Other skills: Teaching experience of over four years as lecturer and teaching assistant in economics.
